

Florian Kéruzoré

Cosmological Physics & Advanced Computing
High Energy Physics Division
Argonne National Laboratory
Lemont, IL, USA

Phone: (+1) 224-277-7384
Email: fkeruzore@anl.gov
ORCID: [0000-0002-9605-5588](https://orcid.org/0000-0002-9605-5588)
Github: [fkeruzore](https://github.com/fkeruzore)

— Post-Doctorate —

Lieu Argonne National Laboratory, Lemont, IL, USA

Dates October 2021 – present

Activities

- Thermodynamic properties of simulated clusters
- Baryon pasting: emulation of thermodynamic properties of simulated clusters
- Millimeter-wave sky maps from cosmological simulations
- Multi-wavelength studies of galaxy cluster samples
- Supervision: post-bachelor internship, 6 months

Simulated catalogs of radio galaxies at mm wavelengths

— PhD in cosmology —

Title High resolution SZ observations for cluster cosmology with NIKA2

Place Laboratoire de Physique Subatomique et de Cosmologie
Université Grenoble Alpes, Grenoble, France

Dates October 2018 – September 2021

Supervision Pr. Frédéric Mayet

Activities

- Observations at the IRAM 30-m telescope
- Analysis of NIKA2 raw data
- Analysis of the thermodynamic properties of the intracluster medium
- Mass-observable scaling relations

— Scientific responsibilities —

2022 – present: PI of a joint SPT-eROSITA project

- Title: Linking SZ and X-ray observables from eROSITA-selected galaxy clusters
- Study of statistical relations between galaxy cluster observables in X-ray and mm-wave
- Goals: understanding differences between SZ and X-ray samples and observables, study of the cluster mass calibration at both wavelengths

2019 – 2021: Responsible of the NIKA2 collaboration SZ pipeline

- Development and standardization of the analysis chain of NIKA2 cluster observations
- Products: NIKA2 raw data reduction software for SZ observations, intracluster medium thermodynamic properties measurement software

2019 – 2021: Responsible of the NIKA2 collaboration SZ database

— International collaborations —

2022 – present: Member of the Dark Energy Science Collaboration (DESC)
2022 – present: Member of the CMB-S4 collaboration
2022 – present: Member of the South Pole Telescope (SPT) collaboration
2021 – present: Member of the Galaxy Clusters working group of the SPT collaboration
2019 – present: Member of the CHEX-MATE collaboration
2019 – present: Core Team member of the NIKA2 collaboration
2018 – present: Member of the NIKA2 collaboration

— Skills —

Galaxy clusters Cosmology, Sunyaev-Zeldovich effect, X-ray emission
Intracluster medium thermodynamics, Scaling relations,
 N -body simulated clusters

Data analysis Bayesian inference, Monte Carlo Markov Chains,
Regression, Hierarchical modelling,

Programming Python (scipy, astropy, emcee, pymc3), IDL, R, \LaTeX , bash,
Version control (git, svn), Documentation (Sphinx),
Parallel computing (multithreading, MPI)

— Education —

2018 – 2021 PhD in cosmology, Université Grenoble Alpes, France
2016 – 2018 Master's degree in Physics, Université de Montpellier, France
Graduated with honors – Rank: 1st
2014 – 2016 Bachelor's degree in Physics, Université de Bordeaux, France
2012 – 2014 Two-year degree in applied physics, Université de Bordeaux, France

— Summer schools —

ESCAPE Summer School – 2021 – Organizer: LAPP Annecy
Data analysis for astronomy, astroparticle & particle physics

Statistical Challenges in Modern Astronomy – 2021 – Organizer: PennState University

IN2P3 School of Statistics – 2021 – Organizer: IN2P3

Pedagogy in higher education – 2019 – Organizer: Université Grenoble Alpes

— Teaching —

2018-2021: 96h of teaching at Université Grenoble Alpes, tutorials (T) and labs (L).

Subject	Year	Type	Hours
Electromagnetism	1st year	T, L	56 h
Applied thermodynamics	3rd year	T	30 h
Nuclear Physics	5th year	L	12 h

— Conferences & Seminars —

International Conferences

- Observing the mm Universe with NIKA2, Roma, Italy, 2021
Talk: A new software to measure pressure profiles from SZ observations
Talk: The $Y_{500} - M_{500}$ scaling relation from the NIKA2 SZ Large Program
- CosmoGold IAP, Paris, France, 2019
Talk + poster: High resolution SZ observations for cluster cosmology with NIKA2
- Observing the mm Universe with NIKA2, Grenoble, France, 2019
Talk: A test case for faint galaxy clusters within the NIKA2 SZ Large Program

National Conferences

- *Action Dark Energy* national colloquium, Paris, France, 2020
Talk: High resolution SZ observations for cluster cosmology with NIKA2

Seminars

- Young Scientists Symposium Series, Argonne National Laboratory, USA, 2022
Mass calibration systematics in Sunyaev-Zeldovich cluster cosmology
- University of Michigan, Ann Arbor, USA, 2022
The NIKA2 SZ Large Program: High angular resolution SZ observations for cluster cosmology
- Laboratoire de Physique Subatomique et de Cosmologie, Grenoble, France, 2020
High-resolution SZ observations for cluster cosmology with NIKA2
- Institut d'Astrophysique et de Planétologie de Grenoble, Grenoble, France, 2020
High-resolution SZ observations for cluster cosmology with NIKA2

— Public codes —

panco2: pressure profile measurements from SZ maps of galaxy clusters

- Public release date: November 2022
- GitHub: [fkeruzore/panco2](https://github.com/fkeruzore/panco2); Documentation: panco2.readthedocs.io
- Forward modeling MCMC analysis, enabling taking into account usual systematics
- Tested on simulated *Planck*, SPT, NIKA2 maps; may be used for any mm-wave cluster observations
